

Marwah has about 10 years of experience working for the public and private sectors on various projects ranging from small-scale residential to large-scale urban projects in Iraq and Lebanon. She prepares and drafts drawings, site analyses, and creates masterplans and design concepts. She adapts research-based innovative solutions to address various urban issues through urban greening, waterfront rejuvenation, and public space appropriation to create vibrant, healthy, and inclusive cities.

Marwah holds a Master in Urban Design (MUD) from the American University of Beirut, Lebanon and a Bachelor of Science in Architecture from the University of Baghdad, Iraq. During her Master's study, her research focuses on urban livability, urban resiliency, and human health and well-being. She also completed an internship at the United Nations Development Programme (UNDP) in Saida, Lebanon, where she assisted in developing improvement plans with a people-centred design and participatory approach.

MARWAH AL-DULAIMI

MUD, BS Arch.
