

Sarah joined Bousfields in November 2021 as a Community Designer, responsible for the preparation of conceptual site layouts and plans of subdivision, in addition to official plan amendment and zoning by-law amendment schedules.

She obtained her Bachelor of Arts in Geography in 2019 from Trent University, where she focused on affordable housing and sustainable transportation strategies in the Greater Toronto and Hamilton Area. In 2021, she obtained her Regional and Urban Planning & GIS Technician diploma from Mohawk College and began working at a private consulting firm as a Planning Technician. Her experience working as a Planning Technician expanded her passions to include shaping the urban landscape through sustainable and mixed-use design, prompting her to join the Bousfields family.

Sarah is a Certified Planning Technician with the Canadian Association of Certified Planning Technicians (CACPT)
